Why choose **ADVANCED THINK AHEAD?**

**Advanced Think Ahead** is an accelerated modular-based course that provides students with the English skills they need for the 21st century and develops all **eight key competences** in a natural way.

- **Advanced Think Ahead’s innovative structure** gives students a sense of progress.

  Six thematic modules with integrated skills practice offer meaningful and varied productive tasks and a practical *Life Skills* section.

- **The wide variety in content and types of language** incorporates the key competences in a natural way.

  Up-to-date topics and videos, and Culture and Literature pages, provide intercultural enrichment and STEM materials, and encourage social awareness, personal initiative and digital learning skills.

- **Productive tasks develop communication practice and mediation skills.**

  Creative tasks, problem-solving activities and Collaborative Projects give students the opportunity to express themselves in real-life situations.

A fully integrated approach develops plurilingual and reflective competences.

- Advanced Think Ahead integrates skills work with solid language practice and encourages students to reflect on plurilingual aspects of language learning and develop critical thinking skills.

- **Enhanced evaluation tools** offer additional review and assessment options.

  Improved new evaluation tools now include: a new Test Generator, interactive Section Tests, *Use of English, Competences Assessment*, as well as *Progress Check* materials for students.

- **New features and functions** on the Burlington Digital Platform offer the best digital solutions for effective learning.

  Fully interactive Student’s Books and Workbooks, additional digital classroom resources, new interactive section tests, and online student support materials with Flipped Classroom activities develop digital skills.

---

**A full range of Components**
Advanced Think Ahead puts the LOMLOE requirements into practice.

Learning through competences

Advanced Think Ahead’s active and participative methodology develops all specific linguistic competences.

- Task-based modules develop all the specific linguistic competences while the language-learning process itself facilitates acquiring the other key competences.
- A focus on interactive activities develops skills in communication, mediation and collaboration, and enables meaningful learning.
- Reviews and self-assessment charts encourage reflective learning (learn to learn) as well as initiative – students learn to think about and take responsibility for their learning.
- Advanced Think Ahead covers all the basic contents for ESO – communicative, plurilingual and intercultural.
- The Life Skills section provides students with learning tools that will last them a lifetime.

Inclusivity

Advanced Think Ahead is a flexible course designed to accommodate a diversity of needs in the classroom and different learning styles.

- Varied practice and extension exercises and activities in Grammar Challenge may be adapted to every student’s pace.
- Teacher’s resources come with editable extra materials and tests at different levels, and a new Test Generator permits personalised evaluation.
- Collaborative projects, pairwork, games and quizzes engage students of all levels in active learning.
- Exam preparation for students preparing for international exams is also included.

- Varied and graded activities
- Flexible resources for different levels
- Cross-curricular content
- Collaborative projects
- Reflective learning (learning to learn)
- Developing communication and mediation
- Cultural awareness
Digital

A wide range of blended materials develop digital competences.

- Through the Flipped Classroom and Interactive Student, students can study at home at their own pace online.
- Techno Help for projects encourages students to search the web and complement their learning with authentic materials and to learn to use the Internet responsibly.

21st century citizens

Through a careful selection of topics and activities, Advanced Think Ahead helps students acquire relevant 21st century skills, and develop an awareness of key issues related to being a world citizen.

- Carefully selected topics promote awareness of, and respect for, diversity, gender equality and the need for global sustainability.
- Tasks and projects develop creativity and mediation skills, and encourage debate and collaboration to solve problems.
- Real-world cultural, scientific and cross-curricular videos and Culture Magazine encourage and develop students’ curiosity and general knowledge.
- The modular structure and variety of tests and materials in Advanced Think Ahead facilitates STEM education and intercultural work.
